Organized by

Department of Chemistry, Physics, Bioscience, Mathematics and Computer Science & Central Research Instruments Facility, Prasanthi Nilayam Campus, SSSIHL.

"In these days of great advances in modern science, there are undoubtedly some great men who have understood the basic synthesis between modern science on the one hand and spirituality and ancient wisdom on the other— Newton, Einstein, Heisenberg, Schrodinger, Dirac.... Their conclusions are nothing but an echo of what the ancient sage, Vyasa, had said "to help others is meritorious, to hurt others is sinful." - Sathya Sai Baba
