

WORKSHOP ON TUBERCULOSIS EPIDEMIOLOGY AND THE NATIONAL TUBERCULOSIS ELIMINATION PROGRAM (NTEP)

AGENDA

(January 27th – Friday - Morning) – Session - 1

10.00 am to 12.00 pm: To discuss on the research topic

“Impact of the nutritional supplementation on incidence of tuberculosis among household contacts of microbiologically confirmed pulmonary TB patients in addition to TB preventive treatment”

To finalize the mathematical model and to discuss the way to go about for parameter estimation for the mathematical model.

(January 27th – Friday - Afternoon) - Session - 2

2.00 pm – 3.00 pm: Presentation by Dr. Darshan Gera (Faculty, DMACS – SSSIHL) regarding a TB work and a follow up discussion

3.00 pm – 4.30 pm: Visit to the Central Instrumentation Research Facility (CRIF)

WORKSHOP ON TUBERCULOSIS EPIDEMIOLOGY AND THE NATIONAL TUBERCULOSIS ELIMINATION PROGRAM (NTEP) AGENDA

(January 28th – Saturday - Morning) - Session - 3

10.00 am to 11.00 am : A presentation from NTI Resource persons regarding the NTEP program, its objectives, strategies and the digital data being collected for NTEP program.

11.00 am to 12.00 pm: Open discussion regarding the possible collaborations with DMACS faculty

(January 28th – Saturday - Afternoon) - Session - 4

(2.00 pm – 5.00 pm) – Colloquium session

2.00 pm – 2.45 pm – A presentation from NTI Resource persons regarding TB Epidemiology to the pg science students and faculty

2.45 pm– 3.30 pm – A presentation from NTI Resource persons regarding the NTEP program, its objectives, strategies and the digital data being collected for NTEP program to the pg science students and faculty

3.30 pm to 4.30 pm – A presentation from NTI Resource persons regarding the laboratory methods in TB for Micro bacteriology at NTI.

4.30 pm to 5.00 pm – Open discussion with students and faculty from the science departments of SSSIHL.
