About the University

Education should serve to enlarge the vision and broaden the outlook of people – -Bhagawan Sri Sathya Sai Baba (Revered Founder Chancellor)

Sri Sathya Sai Institute of Higher Learning (Deemed to be University) offers value-based education free of charge to students irrespective of income, religion, or region, to mold them into individuals of integrity and character. The Institute has maintained a consistently high standard of academic excellence through the years. It offers Undergraduate, Postgraduate, Professional, and Research Programs on four campuses, with its headquarters in Prasanthi Nilayam, Puttaparthi, Andhra Pradesh.

To know more about the University: <https://www.sssihl.edu.in/>

About the Department of Food and Nutritional Sciences

The Department endeavours to equip students with the knowledge and skills for understanding the processing of fresh produce and ready-to-eat/use foods, role of nutrition in health and diseases, and be an active contributor to the social welfare of the community. Intending to open wider avenues for students in the fast-growing food-based industry, Department offers courses in B.S.(Hons) in Food and Nutritional Sciences, M.Sc. Food and Nutritional Sciences (with specialization in Applied Nutrition & Food Technology) along with Ph.D. programs in Food Technology and Applied Nutrition.

About the Symposium

As a part of the journey towards sustainability, the Department of Food & Nutritional Sciences, SSSIHL, is organizing a two-day national symposium on **“A Holistic Approach to Sustainable Food Systems: Integrating Agriculture, Nutrition and Food Safety”** on the 1st and 2nd March 2024 to provide a unique learning platform by bringing together experts in the domain of agriculture, nutrition, food processing.

Overview

Our symposium serves as a platform to explore and address key challenges in the realm of sustainable food systems. Through focused discussions and expert insights, participants will delve into critical sub-topics including sustainable agriculture, food processing, nutrition, and food waste management. By fostering collaboration and knowledge-sharing, we aim to cultivate innovative strategies that promote food security & safety, environmental oversight, and public health.

**JOIN US AS WE SOW THE SEEDS FOR A MORE
SUSTAINABLE AND NOURISHING FUTURE !!!**

Relevance

- **Sustainability:** Addresses environmental concerns in food production.
- **Health Focus:** Provides strategies for healthier food options.
- **Waste Reduction:** Offers solutions to minimize food wastage.
- **Innovation and Collaboration:** Fosters partnerships to tackle food system challenges.

Target Participants

Academicians, Scientists, Delegates, Researchers, Students Professionals, Industrialists, Nutritionists, Entrepreneurs, and other stakeholders.

THEMES

Sustainable agriculture for food and nutrition security

Sustainable food processing

Sustainable food product development

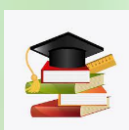

Sustainability in food systems and health outcomes

Valorization of industrial food waste

Invited Speakers

Academia

- **Prof. R. Jagan Mohan**
NIFTEM, Thanjavur
- **Prof. D. Vijayalakshmi**
ICAR-UAS, GKV, Bangalore
- **Prof. P. Saralakumari**
UAS, GKV, Bangalore

Industry

- **Mr. Kalluri Suresh**
Pranav Food Processor India Pvt Ltd., Hyderabad
- **Mr. Shyam Mohan**
Tier 1 Network Pvt Ltd., Bengaluru

Scientists

- **Dr. A. Ashok Kumar**
ICRISAT-Asia
- **Dr. B.V.S.K. Rao**
CSIR-IICT, Hyderabad
- **Dr. P. Raghavendra**
ICMR-NIN, Hyderabad
- **Dr. Jeevan Prasad Reddy D**
CSIR-CFTRI, Mysore
- **Dr. K.B.R.S. Visarada**
CSIR-IIMR, Hyderabad

The symposium is focused on the following SDGs adapted by United Nations

TOWARDS A SUSTAINABLE FUTURE...

About Anantapur

Anantapur city, the district headquarters, is in the South-Western part of Andhra Pradesh state. There are many places of historical, geographical, and religious interest near the city. The University headquarters is located at Prasanthi Nilayam, Puttaparthi, the birthplace and holy abode of Bhagwan Sri Sathya Sai Baba, Revered Founder Chancellor. Being located at the heart of Rayalaseema, both Anantapur and Puttaparthi receive very little rainfall. Farmers largely depend on drought-prone, rain-fed agriculture. The ecoregional approach will have to aim at enhancing productivity and production on a sustainable basis to meet the growing needs for food and fuel.

Convenor

Dr. M. Srijaya

Co-Convenor

Dr. Tapasya Anand

Dr. Ambati Padmaja

Members

Prof. N. Srividya

Hon. Prof. B. Andallu

Dr. Meera M

Dr. A Sumana

Dr. Jhinuk Gupta
