Centre, Prasanthi Nilayam

### **Profile:**

Dr. Sailesh Rao, Founder of Climate Healers, is an environmentalist and systems engineer. He revolutionized internet connections with a protocol for transforming early analog internet connections to more robust digital connections, still widely used, boosting speed tenfold. A Human, Earth, and Animal Liberation (HEAL) activist, he pledged a vegan world for his granddaughter by 2026, driven by ethics and ecological urgency. He designed the Climate Bathtub model to guide humanity in addressing climate change and fostering a sustainable planet.

# Talk *Synopsis*

## THE GREATEST TRANSFORMATION IN HUMAN HISTORY

Dr. Sailesh Rao, Founder and Executive Director of Climate Healers, will discuss the efforts of his organisation on healing the Earth's climate comprehensively. Climate Healers aims for a systemic shift towards a climate-healing civilization, advocating a sustainable, plant-based, vegan rewilding economy over the current unsustainable, animal-based, conspicuous consumption model. This transformation is anticipated to be the “Greatest in Human History,” surpassing historical revolutions, as it unveils the spiritual fire within humanity.
